Subject Index, Volume 105

(E) = Editorial (CAC) = Case Analysis Clinic

Abdomen and pelvis, isolated perfusion in treatment of advanced carcinoma of, 619
Aberrant intrapancreatic ducts leading to fatality after gastrectomy, 685
Abscess, psoas, simulating clostridial infection, 273
Abscesses, intrahepatic, stones and foreign bodies with entire left lobe resection of liver, 278
Absorption, intestinal; experimental fat and D-xylose studies of, 73
Acidity and peptic activity of the gastric contents, recurrent ulceration after various operations for duodenal ulcer based upon, 375
Acute
  massive hemorrhage from peptic ulceration immediately following unrelated major surgery, 691
  pancreatitis following distal gastrectomy for benign ulcer, 87
Aged, thoracic emergencies in, 543
Agents used in cancer chemotherapy, 579
Airways
  and esophagus, foreign bodies in, 522
  major, fracture of, 511
Alcoholism, known, cause, prevention and cure (E), 559
Alimentary
  tract and gene, 49
    problem; esophageal hiatus hernia, 2
    surgery of, introduction, 1
Anastomosis
  Billroth 1, and hemigastrectomy combined with selective gastric vagotomy, 361
    vagotomy and hemigastrectomy, technic of, 413
Anemia in leiomyosarcoma of duodenum, 245
Anesthesia and resuscitation in crushed chest injuries, 553
Aneurysm
  false aortic, repair of, thirteen months after aortic valve surgery; injuries of the thoracic aorta, review and case report, 462
  of aorta treated by excision: review of 237 cases followed up to seven years, 793
    gluteal artery secondary to polyarteritis nodosa, 267
    renal artery; successful resection with reconstruction of the bifurcation, 269
Antibiotic agents, use of, in bacterial invasion resulting from gastrointestinal operations, 108
Antigenicity, transplantation, of lymphoid cells grown *in vitro*, 167
Antigens, tumor-specific, and the homograft reaction, 184
Antimetabolites, cancer chemotherapy by continuous intra-arterial infusion of, 628
Aorta
  thoracic, injuries of; selective review and case report of repair of false aortic aneurysm thirteen months after aortic valve surgery, 462
  treated by excision, aneurysm of, review of 237 cases followed up to seven years of, 793
Arrest, cardiac, 454
Arterial continuity, cervical carotid aneurysms, treatment by excision and restoration, 771
Arteriography, preoperative hepatic, use of, in treatment of traumatic hemobilia, 662
Artery
  gluteal, aneurysm of, secondary to polyarteritis nodosa, 267
  iliac, obstruction of, caused by retroperitoneal fibrosis, 285
  renal, aneurysm of, successful resection with reconstruction of the bifurcation, 269
Autotransplant, small bowel, in intestinal transplantation, 58

Bacterial invasion resulting from gastrointestinal operations, 108
Baggies,® use of, in ileostomy care, a refinement, 659
Basic concepts in homologous tissue transplantation, 151
Bifurcation, successful resection with reconstruction of, in aneurysm of the renal artery, 269
Bile duct stricture, common, in experimental investigations of biliary strictures, 221
Billroth 1
  anastomosis and hemigastrectomy combined with selective gastric vagotomy, 361
    anastomosis, vagotomy and hemigastrectomy, technic of, 413
Book reviews
  Anatomy of the Coronary Arteries (James), 289
  Cardiovascular Surgery (Julian, Dye, Javid and Hunter), 436
  Chirurgische Anatomie Thorax (Nagy), 437
  Clinical Neurosurgery, Vol. 8, 289
  Diagnosis and Surgical Management of Diseases of the Temporomandibular Joint (Sarnat and Laskin), 145

Book reviews
Hare-Lips and Their Treatment (LeMesurier), 436
Intravenous Cholangiography (Wise), 571
Short Practice of Surgery (Bailey and Love), 571
Surgery
of the Head and Neck, 2nd ed. (Wise and Baker), 437
for Nurses (Moroney), 437
Surgical
Treatment of Intracranial Meningiomas (MacCarty), 145
Peripheral Vascular Disease (Barker), 571
The Atlas of Eye Surgery, 2nd ed. (Paton, Smith and Stilwell), 145
The General and Plastic Surgery of the Hand (Clarkson and Pelly), 288
The Postthrombophlebitic Syndrome (Popkin), 145
Year Book of Cancer 1961–1962 (Clark and Cumley), 288
Yearbook of Cardiovascular and Renal Diseases (Harvey and Kirklin), 288
Bowel preparation and peritoneal irrigation on duration of postoperative ileus, effect of antibiotic, 768
Brain and face tumors, isolated perfusion in treatment of advanced carcinoma in, 624

Cancer (*see also* Carcinoma)
Cancer
chemotherapy, agents used in, 579
by continuous intra-arterial infusion of antimetabolites, 628
complications of regional, perfusion and infusion technics, 645
immunology, homograft reaction in, 192
Carcinoid
syndrome, malignant, in ileum, 35
tumors; a study of seventy-eight cases, 35
Carcinoma (*see also* cancer)
Carcinoma
advanced, brain and face tumors in, isolated perfusion in treatment of, 624
in abdomen and pelvis, isolated perfusion in treatment of, 619
islet-cell, management of patients with, exhibiting Zollinger-Ellison syndrome, 80
metastatic, of colon, and unexplained survival after twelve years, 126
of colon and rectum and results of treatment in a County Hospital population, 117
pelvic perfusion for, 102
Carcinomatous degeneration in sebaceous cysts, 677
Cardiac
arrest, 454
contusion, puncture and tamponade, 458
Cardiopulmonary
emergencies in association with trauma, introduction, 439
physiology in relation to trauma, 440
Carotid
aneurysms, cervical, treatment by excision and restoration of arterial continuity, 771
artery infusion, prevention and treatment of complications of chemotherapy by, 759
Cells, lymphoid, *in vitro*, transplantation antigenicity of, 167
Cellular resistance to digestion in pathogenesis of peptic ulceration, 295
Cervical carotid aneurysms: treatment by excision and restoration of arterial continuity, 771
Chemotherapy
as an adjuvant to surgery, 591
by carotid artery infusion, prevention and treatment of complications, 759
perfusion, current status of, 598
cancer, agents used in, 591
by continuous intra-arterial antimetabolites, 628
complications of regional, by perfusion and infusion technics, 645
fractional intra-arterial, for malignant disease, 640
Chest
injuries to, caused by pressure changes, compression and decompression, 514
crushed, resuscitation and anesthesia in, 553
injury, patient with, initial evaluation and management of, 445
stab and gunshot wounds of: diagnosis and treatment, 469
Chronic retroperitoneal hematoma, 696
Clinical analysis of ovarian virilizing tumors (CAC), 784
Colon
carcinoma of, pelvic perfusion for, 102
and ileum, surgery of endometrioma of, 250
rectum, carcinoma of, and results of treatment in a County Hospital population, 117
metastatic carcinoma of, and unexplained twelve year survival, 126
segmental, resection in the treatment of congenital megacolon (Hirschsprung's disease), 93
Coloscope, fiber optic, and sigmoidoscope; preliminary report, 133
Comments on recurrent ulceration after various operations for duodenal ulcer based upon acidity and peptic activity of gastric contents, 375
Common duct from external blunt trauma, complete division of, 781
Complete division of common duct from external blunt trauma, 781
Complications of regional cancer chemotherapy by perfusion and infusion technics, 645
Compression and decompression; injuries to chest caused by pressure changes, 514
Concepts, basic, in homologous tissue transplantation, 151
Considerations in treatment of traumatic hemobilia, 662
Contusion, cardiac, puncture and tamponade, 458

Current status of regional chemotherapy by perfusion, 598
Curettage in chronic relapsing pancreatitis and transduodenal pancreatic duct dilatation, 30
Cystoduodenostomy in surgical management of pseudocysts of pancreas, 651
Cystogastrostomy in surgical management of pseudocysts of pancreas, 651
Cysts, sebaceous, carcinomatous degeneration in, 677

Decompression and compression: injuries to the chest caused by pressure changes, 514
Definitive surgery for duodenal ulcer in a community hospital, 317
Degeneration, carcinomatous, in sebaceous cysts, 677
Diagnosis
  and management of Zollinger-Ellison syndrome, 383
  treatment of stab and gunshot wounds of the chest, 469
Diaphragm, ruptured, 501
Diet and weight, problems of, in long-term evaluation of two conservative surgical procedures for duodenal ulcer, 370
Dilatation of transduodenal pancreatic duct and curettage in chronic relapsing pancreatitis, 30
Diseases of pancreas, history of, 703
  introduction, 703
Diverticula, gastric, and surgical significance and results of operative treatment, 239
Drape, prepared paper, a new and safe material for draping, justified faith in surgical drapes, 560
Draping, surgical, new and safe material for, 560
Duct
  aberrant intrapancreatic, leading to fatality after gastrectomy, 685
  transduodenal pancreatic, dilatation and curettage in chronic relapsing pancreatitis, 30
Duodenal ulcer in Britain; a sample of practice and results, 320
Duodenum, leiomyosarcoma of, 245
D-xylose and fat experimental studies; intestinal absorption, 73

Editorials
  Hiatal hernia and the surgeon, 558
  Known, cause, prevention and cure, 559
  Sphincterotomy in hemorrhoidectomy, 649
Effect of antibiotic bowel preparation and peritoneal irrigation on duration of postoperative ileus, 768
Emergencies
  thoracic, in aged, 543
    newborn infant, 524
Empyema in rupture of esophagus, 505
Endometrioma of the ileum and colon, surgery of, 250
Esophageal hiatus hernia; an alimentary tract problem, 2
Esophagus
  and airways, foreign bodies in, 522
  rupture of, 505
Evaluation, initial, and management of the patient with a chest injury, 445
Experimental
  investigation of secondary biliary strictures, 221
  strangulation obstruction in guinea pigs, 228
Extremities, perfusion of malignant melanoma of, 607

Face and brain tumors, isolated perfusion in treatment of advanced carcinoma in, 624
Fasting hypoglycemia, phisiologic basis for evaluation of, 730
Fat and D-xylose experimental studies; intestinal absorption, 73
Fiber optic coloscope and sigmoidoscope; preliminary report, 133
Fibrinolysin in the treatment of thrombosed arterial prosthetic grafts: experimental study, 779
Fibrosis
  idiopathic retroperitoneal, 699
  retroperitoneal, obstruction of iliac artery caused by, 285
Finney pyloroplasty as gastric drainage procedure of choice in operative technic of selective gastric vagotomy, 423
Fistula, aortoduodenal, surgical considerations of massive gastrointestinal tract hemorrhage caused by, 6
Fistula, pleurobiliary, complicated by Klebsiella pneumoniae infection, 674
Foreign bodies in airways and esophagus, 522
Fractional intra-arterial chemotherapy for malignant disease, 640
Fracture of major airways, 511
Further studies in survival of skin homografts as a function of quantity and frequency of RNA injections, 174
Fusion using oscillating plug cutter, technic of anterior cervical interbody, 670

Gallstones in patients with cirrhosis of liver in gastric secretion as a surgical problem, 137
Gastrectomy
  aberrant intrapancreatic ducts leading to fatality after, 685
  distal, for benign ulcer followed by acute pancreatitis, 87
  partial, for duodenal ulcer, 338
Gastric
  diverticula; surgical significance and results of operative treatment, 239
  hypersecretion in pathogenesis of peptic ulceration, 295
  resection, subtotal, in definitive surgery for duodenal ulcer in a community hospital, 317
  secretion as surgical problem; panel discussion, 137

Gastroduodenal ulceration in patients with cirrhosis of liver in gastric secretion as surgical problem, 137
Gastrointestinal
operations resulting in bacterial invasions, 108
tract hemorrhage caused by aortoduodenal fistula, surgical considerations of, 6
Gastrojejunal ulcer, problem of recurrent, 680
Gene and the alimentary tract, 49
Genome, role of, contributing to pathogenesis of disease of the alimentary tract, 49
Grafts, thrombosed arterial prosthetic, experimental study of fibrinolysin in treatment of, 779
Guide for the surgical treatment of peptic ulcer, 293
Guinea pigs, experimental strangulation obstruction in, 228

Hematoma, chronic retroperitoneal, 696
Hemigastrectomy
Billroth 1 anastomosis and vagotomy, technic of, 413
anastomosis combined with selective gastric vagotomy, 361
Hemobilia, traumatic, considerations in treatment of, 662
Hemorrhage
acute massive, from peptic ulceration immediately following unrelated major surgery, 691
an internist's view on indications for surgery in chronic duodenal ulcer in, 313
from upper gastrointestinal ulcer, intragastric cooling in management of, 410
of massive gastrointestinal tract, surgical considerations of, caused by aortoduodenal fistula, 6
or perforation in peptic ulcer disease in childhood, 324
Hemorrhoids, internal, office ligation of, 563
Hemorrhoidectomy in sphincterotomy, 649
Hernia
esophageal hiatus; an alimentary tract problem, 2
hiatal, and the surgeon, 558
traumatic, diaphragmatic, in ruptured diaphragm, 501
Hiatal hernia and the surgeon (E), 558
Homograft
reaction and tumor-specific antigens, 184
in cancer immunology, 192
regional lymph node in, 219
skin, survival of, as a function of quantity and frequency of RNA injections, 174
Hyperamylasemia in intestinal obstruction and its relationship to pancreatitis, 720
Hypercoagulability in acute pancreatitis, 714
Hyperfibrinogenemia in acute pancreatitis, 714
Hypoglycemia, fasting, physiologic basis for valuation of, 730
Hypothermia, use of, in cardiac arrest, 454

Idiopathic retroperitoneal fibrosis, 699
Ileostomy
bag liner, use of Baggies® as, in ileostomy care, a refinement, 659
care: a refinement, 659
Ileum and colon, surgery of endometrioma of, 250
Ileus, peritoneal irrigation on duration of postoperative, effect of antibiotic bowel preparation and, 768
Immunology, cancer, homograft reaction in, 192
Infection, clostridial, psoas abscess simulating, 273
Infusion
and perfusion technic complications of regional cancer chemotherapy by, 645
of metabolites by, cancer chemotherapy by continuous intra-arterial, 628
Initial
clinical trial of nitrogen mustard, 574
evaluation and management of the patient with a chest injury, 445
Injections, RNA, survival of skin homografts as a function of quantity and frequency of, 174
Injuries
crushed chest, resuscitation and anesthesia in, 553
of thoracic aorta; selective review and case report of repair of false aortic aneurysm thirteen months after aortic valve surgery, 462
thoraco-abdominal, 490
to chest caused by pressure changes, compression and decompression, 514
Injury, chest, patient with, initial evaluation and management of, 445
Internist's view on the indication for surgery in chronic duodenal ulcer, 313
Intestinal absorption; experimental fat and D-xylose studies, 73
Intestine, importance of, in control of gastric secretion as a surgical problem, 137
Intragastric cooling in the management of hemorrhage from the upper gastrointestinal ulcer, 401
Intrapancreatic ducts, aberrant, leading to fatality after gastrectomy, 685
Irradiation, selective, of lymphatic tissues in preparation for tissue homografting, 177
Islet-cell
carcinoma, management of patients with, exhibiting the Zollinger-Ellison syndrome, 80
tumors of pancreas in gastric secretion as a surgical problem, 137
Isolated
perfusion in treatment of advanced carcinoma: abdomen and pelvis, 619
brain and face tumors, 624

Justified faith in surgical drapes: a new and safe material for draping, 560

Kidney transplants, surgical management of fifty patients with, including eighteen pairs of twins, 205
Klebsiella pneumoniae infection, pleurobiliary fistula complicated by, 674
Known!! cause, prevention and cure (E), 559

Latex tubing, rubber, as vascular prosthesis, 802
Leiomyosarcoma of duodenum, 245
Ligation, office, of internal hemorrhoids, 563
Limited usefulness of serum lactic dehydrogenase activity as test for strangulation obstruction, 233
Lipoprotein, thromboplastic cell component, in hypercoagulability in acute pancreatitis, 730
Liver
  metastatic tumors of, results of resection and, 24
  Reidel's lobe of, 812
  resection of entire left lobe because of intrahepatic abscesses, stones and foreign bodies, 278
Lobe of liver, Reidel's, 812
Long-term evaluation of two conservative surgical procedures for duodenal ulcer, 370
Lymph node, regional, in homograft reaction, 219
Lymphatic tissues, selective irradiation of, in preparation for tissue homografting, 177

Malignant disease, fractional intra-arterial chemotherapy for, 640
Management
  and diagnosis of the Zollinger-Ellison syndrome, 383
    initial evaluation of patient with a chest injury, 445
  of hemorrhage from upper gastrointestinal ulcer by intragastric cooling, 401
  of patients with islet-cell carcinoma exhibiting the Zollinger-Ellison syndrome, 80
Megacolon, congenital (Hirschsprung's disease), segmental colon resection in treatment of, 93
Melanoma, malignant, perfusion for extremities of, 607
Modified ligator, use of, in office ligation of internal hemorrhoids, 563

Newborn infant, thoracic emergencies in, 524
Nitrogen mustard, initial clinical trial of, 574
Nodosa, polyarteritis, aneurysm of gluteal artery secondary to, 267
Normoglycemia during fasting in hypercoagulability in acute pancreatitis, 730

Obstruction
  intestinal, and its relationship to pancreatitis in hyperamylasemia, 720
  of iliac artery caused by retroperitoneal fibrosis, 285
Office ligation of internal hemorrhoids, 563
Operative technic of selective gastric vagotomy, 423

Palliative relief following resection of primary tumor and massive hepatic resection of malignant carcinoid tumor, 35
Pancreas
  in significant role in hormonal stimulation of gastric juice in gastric secretion as a surgical problem, 137
  observations on treatment of trauma to, 741
  surgical management of pseudocysts of, 651
Pancreatic duct exploration for recurrent pancreatitis, technic of, 755
Pancreatitis
  acute, in hypercoaguability, 714
    following distal gastrectomy for benign ulcer, 87
    release of vasoactive substance, 708
  chronic relapsing, curettage in, and transduodenal pancreatic duct dilatation, 30
  hyperamylasemia in intestinal obstruction and its relationship to, 720
  technic of pancreatic duct exploration for recurrent, 755
Parathyroid transplantation; review of literature, 196
Partial gastrectomy for duodenal ulcer, 338
Pathogenesis of peptic ulceration, 295
Pelvic perfusion for carcinoma of the colon, 102
Pelvis and abdomen, isolated perfusion in treatment of advanced carcinoma of, 619
Peptic
  activity and acidity of gastric contents, recurrent ulceration after various operations for duodenal ulcer based upon, 375
  ulcer disease in childhood, 324
Perforation
  acute gastroduodenal, resective therapy in management of, 396
  an internist's view on indications for surgery in chronic duodenal ulcer, 313
  of esophagus, in rupture of esophagus, 505
Perfusion
  and infusion technics, complications of regional cancer chemotherapy by, 645
  current status of regional chemotherapy by, 598
  for malignant melanoma of the extremities, 607
  isolated, treatment of advanced carcinoma of abdomen and pelvis by, 619
    treatment of advanced carcinoma in brain and face tumors by, 624
  isolation, therapy of sarcomas by, 615
  pelvic, for carcinoma of colon, 102
Peritoneal irrigation on duration of postoperative ileus and effect of antibiotic bowel preparation, 768
Physiologic basis for evaluation of "fasting hypoglycemias," 730
Physiology, cardiopulmonary, in relation to trauma, 440
Pleurobiliary fistula complicated by Klebsiella pneumoniae infection, 674
Plug cutter, oscillating, technic of anterior cervical interbody fusion using, 670
Pneumothorax in treatment of fracture of major airways, 511
Present status of intestinal transplantation, 58
Pressure changes: injuries to the chest caused by compression and decompression, 514
Prevention and treatment of complications of chemotherapy by carotid artery infusion, 759
Problem of recurrent gastrojejunal ulcer, 680
Prosthesis, vascular, rubber latex tubing as a, 802

Pseudocysts of pancreas, surgical management of, 651
Psoas abscess simulating clostridial infection, 273
Psychoneurosis, chronic deep-seated, in an internists view on indications for surgery in chronic duodenal ulcer, 313
Puncture, tamponade and cardiac contusion, 458
Pyloroplasty
and selective vagotomy for bleeding duodenal ulcer, 388
vagotomy in surgery in search of a rationale, eighty years of ulcerogenic surgery in, 304
in treatment of duodenal ulcer, 347

Reaction
homograft, and tumor-specific antigens, 184
in cancer immunology, 192
regional lymph node in, 219
Rectum and colon, carcinoma of, and results of treatment in a County Hospital population, 117
Regional lymph node in homograft reaction, 219
Release of vasoactive substances in acute pancreatitis, 708
Resection
antral, and vagotomy in surgical treatment of duodenal ulcer, 352
for aneurysm of renal artery with reconstruction of bifurcation, 269
of entire left lobe of liver; intrahepatic abscesses, stones and foreign bodies, 278
metastatic tumors of liver, results of, 24
segmental colon in treatment of congenital megacolon (Hirschsprung's disease), 93
triangular wedge, of less curvature gastric ulcers, 40
Results of resection of metastatic tumors of liver, 24
Resuscitation
adequate, in thoraco-abdominal injuries, 490
and anesthesia in crushed chest injuries, 553
Riedel's lobe of liver, 812
Role of resective therapy in management of acute gastroduodenal perforation, 396
Rubber latex tubing as a vascular prosthesis, 802
Rupture
diaphragmatic, treatment of, in ruptured diaphragm, 501
of esophagus, 505
Ruptured diaphragm, 501

Sarcomas by isolation perfusion, therapy of, 615
Secretion, gastric, as a surgical problem; panel discussion, 137
Segmental colon resection in the treatment of congenital megacolon (Hirschsprung's disease), 93
Selective
gastric vagotomy, 13
combined with hemigastrectomy and Billroth 1 anastomosis, 361
irradiation of lymphatic tissues in preparation for tissue homografting, 177
Serum lactic dehydrogenase activity, limited usefulness of, as a test for strangulation obstruction, 233
Sigmoidoscope and fiber optic coloscope; preliminary report, 133
Skin homografts, studies in the survival of, as a function of quantity and frequency of RNA injections, 174
Some observations on the treatment of trauma to the pancreas, 741
Sphincterotomy in hemorrhoidectomy (E), 649
Stab and gunshot wounds of the chest: diagnosis and treatment, 469
Strangulation
obstruction, experimental, in guinea pigs, 228
serum lactic dehydrogenase activity as a test for, limited usefulness of, 233
Strictures, secondary biliary, experimental investigation of, 221
Surgeon and hiatal hernia, 558
Surgery
and patient with intractable peptic ulcer, 334
chemotherapy as an adjuvant to, 591
definitive, for duodenal ulcer in a community hospital, 317
in search of a rationale; eighty years of ulcerogenic surgery, 304
of alimentary tract, introduction, 1
endometrioma of the ileum and colon, 250
ulcerogenic, eighty years of, in search of a rationale, 304
Surgical
considerations of massive gastrointestinal tract hemorrhage caused by aortoduodenal fistula, 6
management of fifty patients with kidney transplants including eighteen pairs of twins, 205
of peptic ulcer in childhood, 324
pseudocysts of the pancreas, 651
treatment of duodenal ulcer, introductory comments, 291
by vagotomy and antral resection, 352
Symposia
Cardiopulmonary emergencies in association with trauma, 439
Current status of chemotherapy of solid tumors, 573
Diseases of pancreas, 703
Surgical treatment of duodenal ulcer, 291
Transplantation and preservation of tissues, 147
Syndrome
Zollinger-Ellison, diagnosis and management of, 383
patients with islet-cell carcinoma exhibiting, management of, 80

Tamponade, cardiac contusion and puncture, 458
Technic
of anterior cervical interbody fusion using an oscillating plug cutter, 670
pancreatic duct exploration for recurrent pancreatitis, 755

Technic, vagotomy, hemigastrectomy and Billroth 1 anastomosis, 413
Therapy
of sarcomas by isolation perfusion, 615
resective, in management of acute gastroduodenal perforation, 396
Thiry-Vella fistula of duodenum in gastric secretion as a surgical problem, 137
Thoracic
emergencies in aged persons, 543
newborn infants, 524
Thoraco-abdominal injuries, 490
Thorax
aneurysm within, in aneurysm of aorta treated by incision, review of 237 cases followed up to seven years, 793
treatment of blunt trauma to, 484
Thrombosis, venous, arterial, in fibrinolysin in treatment of thrombosed arterial prosthetic grafts, experimental study, 779
Tissue
homografting, selective irradiation of lymphatic tissues in preparation for, 177
transplantation and preservation of, introduction, 147
Trachea, traumatic opening of, in fracture of major airways, 511
Transduodenal pancreatic duct dilatation and curettage in chronic relapsing pancreatitis, 30
Transplantation
and preservation of tissues, introduction, 147
antigenicity of lymphoid cells grown *in vitro*, 167
homologous tissue, basic concepts in, 151
intestinal, present status of, 58
parathyroid; a review of literature, 196
Transplants, kidney, surgical management of fifty patients with, including eighteen pairs of twins, 205
Transportation of severely wounded in thoraco-abdominal injuries, 490
Trauma
blunt, treatment of, to thorax, 484
cardiac arrest following, 454
cardiopulmonary emergencies in association with, 439
physiology in relation to, 440
complete division of common from external blunt, 781
to pancreas, observation in treatment of, 741
Traumatic hemobilia, considerations in treatment of, 662
Treatment
and diagnosis of stab and gunshot wounds of the chest, 469
of blunt trauma to thorax, 484
congenital megacolon (Hirschsprung's disease), segmental colon resection in, 93
duodenal ulcer by vagotomy and pyloroplatsy, 347
Treatment
operative, for gastric diverticula; surgical significance and results, 239
surgical, of duodenal ulcer, 291
by vagotomy and antral resection, 352
peptic ulcer; a guide, 293
Trial of nitrogen, initial clinical, 574
Triangular wedge resection of lesser curvature gastric ulcers, 40
Tumors
brain and face, isolated perfusion in treatment of advanced carcinoma in, 624
carcinoid; study of seventy-eight cases, 35
clinical analysis of ovarian virlizing, 784
metastatic, of the liver and results of resection, 24
Tumor-specific antigens and homograft reaction, 184

Ulcer, benign, acute pancreatitis following distal gastrectomy for, 87
bleeding duodenal, selective vagotomy and pyloroplasty for, 388
chronic duodenal, indications for surgery in, 313
diathesis characterized by hypersecretion in gastric secretion as a surgical problem, 137
duodenal, based upon acidity and peptic activity of gastric contents with comments on recurrent ulceration after various operations, 375
in Britain; practice and results, 320
definitive surgery for, in a community hospital, 317
partial gastrectomy for, 338
surgical treatment of, by vagotomy and antral resection, 352
treatment of, by vagotomy and pyloroplasty, 347
two conservative surgical procedures for, long-term evaluation of, 370
gastrojejunal, problem of recurrent, 680
intractable peptic, surgery and patient with, 334
lesser curvature gastric, triangular wedge resection of, 40
peptic, disease in childhood, 324
guide for surgical treatment of, 293
upper gastrointestinal, hemorrhage from, intragastric cooling in the management of, 401
Ulceration
in patient with cirrhosis of liver in gastric secretion as a surgical problem, 137
peptic, immediately following unrelated major surgery from acute massive hemorrhage, 691
pathogenesis of, 295
recurrent, after various operations for duodenal ulcer based upon acidity and peptic activity of the gastric contents, 375
Ulcerogenesis in cirrhosis of liver in gastric secretion as a surgical problem, 137
Unexplained twelve year survival after metastatic carcinoma of colon, 126
Urogran, intravenous, use of, in idopathic retroperitoneal hematoma, 696

Vagi, a direct effect of, in gastric secretion as a surgical problem, 137
Vagotomy
and antral resection in surgical treatment of duodenal ulcer, 352
antrectomy in peptic ulcer in childhood, 324
pyloroplasty in treatment of duodenal ulcer, 347
conventional selective gastric, a logical refinement of, 13
hemigastrectomy and Billroth 1 anastomosis, technic of, 413
in treatment of duodenal ulcer in Britain, sample of practice and results of, 320
selective, and pyloroplasty for bleeding duodenal ulcer, 388
gastric, 13
combined with hemigastrectomy and Billroth 1 anastomosis, 361
Vagotomy
gastric
operative technic of, 423
Vagus and antrum, balancing factors between, in gastric secretion as a surgical problem, 137
Valve surgery, aortic, repair of false aortic aneurysm thirteen months after; injuries of thoracic aorta, 462
Varicose veins, stripping treatment of choice in, versatile malleable vein stripping equipment, 667
Vasoactive substances in acute pancreatitis, release of, 708
Vein stripping equipment, versatile malleable, 667
Versatile malleable vein stripping equipment, 667

Wounds, stab and gunshot, of the chest: diagnosis and treatment, 469
